

October 12, 1990

Cesca Information Systems  
Mr. Paul Kulas  
9890 S. Foxhill Circle  
Highlands Ranch, Colorado 80126

Dear Paul:

I'd like to thank you for signing the service agreement with U S West Communications on September 25, 1990. As soon as your application is fully designed then we can proceed to program our Audio Options Voice Information Messaging System to fit your needs.

As I have explained, your restaurant information will reside on our equipment within our Central Office. You will be able to update your information as often as needed. Our next step is to order your telephone lines that will be run into Audio Options Voice Information Messaging and to get the go ahead from you to begin programming the system. We need at least a three week time interval.

If you have any further questions, please call me on 602-235-1536 or 303-965-1376. I look forward to working with you and having you as a U S West Audio Options Voice Information Messaging customer.

Sincerely,

*Debbie Miller*
